

Mobile Food Unit – Discharge Approval Form

Mobile Food Units (MFU) must ensure their wastewater is discharged properly in order to be compliant with the RWRA Pretreatment Regulation. Mobile Food Unit owner shall submit to RWRA for approval this Discharge Approval Form, layout sheets of equipment and plumbing plans, and if applicable, a picture of the Clean Out intended for use at the Commissary.

Menu Description	

Choose one of the three options your MFU will be utilizing for proper grease abatement and/or greywater tank content disposal. Complete all information requested for the option of your choice.

Option 1 – Utilize Commissary

A Commissary, for the purpose of this form submission, is an FSE that is connected to the RWRA Collection System that agrees to allow the MFU to discharge contents from the greywater tank through their GCD for the purpose of grease abatement.

The designated Commissary must have an outdoor, well-maintained GCD that is in compliance with the FOG Management Program. The GCD must be equipped with a Clean Out that is installed upstream of the influent side of the GCD. The Clean Out shall be the discharge point of greywater into the GCD. A picture of the Clean Out must be provided with this form submission.

Option 2 – Install a grease interceptor on the MFU

Make: _____

Model: _____

Disposal Method: _____

Greywater Discharge Location: _____

Option 3 – Other disposal methods, explained in full detail: _____

Mobile Food Unit Business Owner to Complete This Section

I understand greywater tank contents could be considered a pollutant or wastewater which causes Pass Through or Interference, as detailed in the Prohibited Discharge Standards section of RWRA Pretreatment Regulation. Therefore, improperly discharging the contents would be in violation of the RWRA Pretreatment Regulation.

I understand I am not permitted to discharge greywater at any location not listed in this Discharge Approval Form.

I understand I may be responsible for recording the discharge events from my MFU in the format deemed appropriate by RWRA.

I agree to notify the RWRA Environmental Compliance Department (270-687-8440) prior to changing the method or location established in this Discharge Approval Form. By signing below, I certify that I understand all the contents of this agreement.
